**Haskins is Home**

## **From the Mayor's Office Haskins Village**

On 3/31/2020 I and the Village Administrator participated in a Conference call with the County Commissioners and Local Officials. The discussion focused on an update on Wood County's planning and preparing for the surge of cases that are expected in the County.

Wood County Hospital is preparing and developing plans and additional space for patients while working with the surrounding areas.

Participants collectively feel that Wood County is in a good position at this point and expressed their gratitude to the Citizens of Wood County in making this happy. They stressed the actions of the residents have and will continue to make a direct impact on this for the entire area. Please continue to follow the Stay At Home Order and practice Social Distancing.

All Officials request that everyone follow the guidelines set in place from Federal, State, and Local Officials. Please visit the following link for up to date information:
